ABOUT

Informatics graduate (GPA 3.59/4.00) from Universitas Siliwangi with hands-on experience building and deploying fullstack applications for government institutions, including Sekretariat Jenderal DPR RI. Proficient in Python, Java, JavaScript, and PHP, with practical knowledge of MySQL, the software development lifecycle, and Agile workflows. Experienced in turning user requirements into tested, production-ready software, with strong teamwork and communication skills.

EDUCATION

SILIWANGI UNIVERSITY 2020 - 2025
Bachelor of Engineering, Informatics 3.59/4.00
Thesis: Sentiment Analysis of Social Media Regarding DPR RI: Comparing Extra Trees and Random Forest Accuracy with a Green Computing Approach

WORK EXPERIENCE

PERSADA ERA CENDEKIA Jakarta, Indonesia
ASSIGNEE IN HOUSE OF REPRESENTATIVES OF THE REPUBLIC OF INDONESIA (DPR RI) March 2026 – Present
Fullstack Developer

- Develop and maintain fullstack web applications for DPR RI's internal operations using Laravel (PHP), Node.js/Express, Vue, and MySQL.
- Build RESTful APIs and responsive front-end interfaces from user requirements, then test and deploy to production.
- Diagnose and resolve technical issues, improving system performance and reliability of existing applications.
- Collaborate with cross-functional teams under Agile, participating in sprint planning and code reviews.

WELOCALIZE Remote
Ads Quality Rater December 2025 – May 2026

- Evaluate the relevance and quality of online advertisements based on established guidelines.
- Assess alignment between ads, user intent, search queries, and landing page content.
- Identify misleading, low-quality, or policy-violating advertisements.
- Analyze landing pages for accuracy, trustworthiness, and user experience.
- Provide consistent ratings and constructive feedback to improve ad performance and quality

HOUSE OF REPRESENTATIVES OF THE REPUBLIC OF INDONESIA (DPR RI) Jakarta, Indonesia
IT Programmer, Internship February 2024 – June 2024

- Designed, coded, and tested applications according to user needs as part of the MSIB program.
- Resolved technical issues and optimized system performance to enhance software efficiency.
- Utilized programming languages such as Java, Python, and JavaScript and implemented industry frameworks.
- Applied efficient coding practices, software development lifecycle principles, and Agile methodology.
- Collaborated in team projects, enhancing communication and teamwork skills.
- Studied current trends and technologies in IT under experienced mentorship.

DEPARTMENT OF COMMUNICATION AND INFORMATION (DISKOMINFO) Tasikmalaya, Indonesia
UI/UX Designer, Internship August 2023 – October 2023

- Developed visually appealing and consistent user interface designs.
- Designed user interface interactions to improve usability and operational efficiency.
- Created wireframes, mockups, and prototypes using design tools such as Figma.
- Conducted user needs research and analyzed feedback to refine and improve designs.
- Collaborated with development teams to ensure designs were effectively implemented.

ORGANIZATIONAL EXPERIENCE

GENERASI BARU INDONESIA

Siliwangi University

Vice Chairman

March 2023 – March 2024

- Oversaw the implementation of organizational programs and internal coordination across all divisions.
- Assisted the Chairman in strategic decision-making and organizational management.
- Maintained communication and accountability with Bank Indonesia regarding program execution and reporting.
- Ensured smooth internal operations by managing team dynamics and facilitating regular evaluations.

Entrepreneurship Division Staff

March 2022 – March 2023

- Participated in CBP Rupiah education campaigns and entrepreneurship initiatives in collaboration with Bank Indonesia.
- Implemented and monitored the division's entrepreneurship programs to enhance student business literacy.
- Contributed to planning, budgeting, and execution of events aimed at fostering youth economic empowerment.
- Supported internal coordination within the division to ensure timely completion of all assigned tasks.

BADAN PENGAWAS ORGANISASI HMIF

Tasikmalaya, Indonesia

Head of Supervisory Commission

January 2023 – December 2023

- Designed and led oversight plans to monitor the Informatics Student Association's performance throughout the year.
- Supervised the execution of work programs across divisions to ensure compliance with organizational standards.
- Coordinated internal evaluations and provided strategic recommendations for improved governance.
- Managed a team within the supervisory commission to ensure effective and timely reporting of findings.

INFORMATICS STUDENT ASSOCIATION

Tasikmalaya, Indonesia

Head of Strategy and Advocacy Division

January 2022 – December 2022

- Facilitated internal forums to discuss academic and student life issues within the Informatics department.
- Collected, analyzed, and articulated student aspirations to be formally submitted to institution.
- Developed strategic advocacy initiatives to support student welfare and institutional collaboration.
- Acted as a liaison between students and the department to ensure responsive communication and issue resolution.

PROJECTS

Sentiment Analysis of DPR RI Social Media

June 2024

- Used Python for text preprocessing, sentiment analysis, and result visualization.
- Processed datasets from various social media platforms to gain data-driven insights into public opinion.
- Assessed public perception of DPR RI's performance and policies using text-based sentiment analysis.

License Plate Recognition System

May 2024

- Built a vehicle license plate detection and recognition system using Python for the DPR RI Secretariat General environment.
- Automatically detected and counted incoming vehicles via camera.
- Extracted and stored vehicle plate data for documentation and security purposes.

Parliament Building Navigation Map

March 2024

- Developed an interactive navigation map application using Unity for the DPR RI environment.
- Designed and implemented location search and fastest route selection features.
- Integrated mapping logic and route search algorithms for efficient navigation.

DPR RI Partner Dataset Analysis

February 2024

- Analyzed partner datasets to support meetings and decision-making by DPR RI.
- Processed and visualized data using Tableau for clear and informative presentation.

SIMPAN SPBE of Tasikmalaya

August 2023

- Led the design of a responsive and visually appealing UI prototype for a government website, ensuring an intuitive and satisfying user experience.
- Analyzed user needs through stakeholder and end-user discussions.
- Collaborated with developers to ensure consistent and efficient design implementation.

PUBLICATIONS

Analisis Perbandingan Metode Think-Aloud, Evaluasi Heuristik dan Cognitive Walkthrough untuk Evaluasi Usability pada Aplikasi Simpeda

JUSTIN (Jurnal Sistem dan Teknologi Informasi) Vol 12, No 2 (2024)

April 2024
